United States, KS 66223

PROFESSIONAL SUMMARY

Innovative and adaptable, bringing solid technical expertise in HTML, CSS, and JavaScript with keen eye for design and user experience. Fluent in modern front-end frameworks like React and Vue.js, alongside responsive web design practices. Committed to creating seamless, user-friendly interfaces that drive engagement and satisfaction.

SKILLS

- Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- Tools: Git, GitHub, Vercel, Figma, VS Code
- Concepts: Component Architecture, Responsive Design, State Management, REST APIs, Accessibility (WCAG 2.1), Performance Optimization, Agile Development

EDUCATION

University of Central Missouri

Lee's Summit, MO • 08/2024

MS: Computer Science

GPA: GPA: 3.5 / 4.0

Malla Reddy Engineering College

India • 05/2022

B.Tech: Electronics & Communication Engineering

GPA: CGPA: 8.6 / 10

CERTIFICATIONS

- Google UX Design Professional Certificate
- Google Data Analytics Professional Certificate
- Agile UX Research — Interaction Design Foundation
- Visual Design & High-Fidelity Prototyping using Figma

EXPERIENCE

ETS - Frontend Developer

Remote • 12/2025 - Current

- Engineered responsive, WCAG 2.1-compliant React interfaces serving 10K+ monthly users, reducing reported accessibility violations by 35%.
- Built a shared component library of 20+ reusable UI primitives — modals, data tables, form controls — cutting cross-team development cycles by 30%.
- Improved Largest Contentful Paint (LCP) by 40% through code-splitting, lazy loading, and image optimization, lifting Core Web Vitals scores to passing.

Accenture - Frontend Developer

Remote • 12/2024 - 12/2025

- Delivered 8+ production React features for enterprise clients, implementing scalable component hierarchies that reduced UI inconsistencies across 5 product modules.
- Translated Figma design systems into pixel-accurate, mobile-first interfaces with verified cross-browser compatibility across Chrome, Firefox, Safari, and Edge.
- Contributed to a shared design system adopted by 3 project teams, standardizing typography, spacing tokens, and interaction patterns across products.

Accenture - Software Engineer — UX Focus

Remote • 04/2024 - 12/2024

- Partnered with UX designers to build user-centric interface systems, cutting design-to-dev handoff friction and reducing UI revision cycles by 25%.
- Refactored legacy component structures to enforce single-responsibility principles, improving maintainability and accelerating onboarding for new engineers.
- Shipped UI features across 6 Agile sprints with measurable gains in task-completion rates and session retention in usability benchmarks.
